

Shawn,

As discussed on Saturday evening the Lexington Park Volunteer Rescue Squad respectfully request an open discussion at the next Emergency Services Board meeting about the MEDSTAR St. Mary's Hospital Community Benefit Program lack of documentation/letter that can resolve the open issue on numerous Rescue Squads Audits. As you know, this request is from our Board of Directors and directly involves the approximately \$110,000 of debt that currently shows against LPVRS financial statement and audit due to this issue. LPVRS cannot close out or audit and accept the liability of this debt. It not only impacts 2019 but would force new refiling of previous year's tax documentation. We understand the reasons the county wants us to close out the audit, but we believe that action incumbers LPVRS with officially accepting the liability of this new debt. So, we would like this discussed at a county level at the 12 FEB Emergency Services Board meeting. Thank you.

V/R,

Mark D Miller

President

Lexington Park Volunteer Rescue Squad
